

CATTLE HERD HEALTH STATUS DECLARATION FOR SHOWS & SALES

Instructions to Owners/Exhibitors:

1. Complete Part 1 of this form
2. If stock are to be moved interstate, take this form to your Department of Agriculture/Primary Industries or Rural Lands Protection Board who will complete Part 2.
3. If Johnes Disease (JD) testing has been undertaken, get your Private Vet to complete Part 3, or attach a veterinary certificate.
4. This Herd Health Status form is valid for 6 months from the date of issue. The owner must notify the issuing Government veterinarian or Animal Health Officer of any change in herd status or other information on the form subsequent to completion of this form.
5. This form provides the basis for preparing documentation required by other states prior to entry of cattle. Further testing and disease certification may be required for cattle entering some states.

THIS FORM IS NOT ACCEPTABLE AS AN ENTRY PERMIT TO OTHER STATES

PART 1 - OWNER/EXHIBITOR DECLARATION

Description of cattle (attach list if necessary)

I, Owner / Manager / Exhibitor (print name):

of (print address).....

Declare that with regard to Johnes Disease: (Tick the box for the clause/s which apply)

- (1) The cattle identified above originate from Protected or Free Zones (currently WA, NT, Qld and some of NSW).
 - (2) The cattle identified above originate from assessed herds under the Cattle JDMAP, with status of:
 MN1 MN2 MN3 Herd Status Certificate No.....
 Date of expiry.....
 - (3) The cattle identified above originate from herds where Johnes Disease is not known or suspected to occur.
 - (4) Where applicable the cattle identified above which are 2 years of age or older have been blood tested by a registered veterinarian using the absorbed ELISA test with negative results within 6 months before the date of the show/sale/exhibition. Where the cattle are less than 2 years of age the dam must be tested. If this is not practical the cattle entered must themselves be tested.
 - (5) The cattle identified above originate from herds that are under strict regulatory control and
 - have been undertaking official, audited test and control programs for a minimum of 2 years, and
 - at least 2 consecutive annual whole herd test have been conducted with a reactor rate not exceeding 1.5% at the latest herd test, and
 - the cattle to be exhibited, or their dams, have been tested with negative results as part of at least the last two annual herd tests, and
 - the cattle to be exhibited are not officially listed as 'at risk' cattle for the particular herd, and
 - the cattle to be exhibited have been tested negative within 3 months of the date of the show.
- Exhibitors may also need additional certification to move between Zones or between States. Check with local veterinary authority. The above information, including the description of the animals and property/ies of origin is complete, true and correct.
