STALLION SAFE PRACTICES GUIDELINES

Effective 01 January 2011

Equestrian Australia has, in the interests of public safety and with the assistance of the National Sport Committees, developed the following Code of Conduct, which is a set of guidelines available for adoption by events and organisations.

1. Stallions should wear official 'discs' at all times whilst at the venue. These discs are to be worn on both sides of head collars and bridles or on some part of the horse on both sides to identify to others that the horse is a stallion.

2. No stallion is to be moved around a venue without displaying the stallion discs and a suitable restraint. The restraint can be either a bridle, a rearing bit or a chain lead rein over the nose or under the jaw.

3. Where possible all stallions are to be stabled. If suitable stabling is not available stallions need to wear a collar, which is securely tied to the outside of a truck or trailer. Stallions tied to the outside of a truck or trailer **MUST** be supervised at all times.
